How much more business could you have with top ten results? Did you know that sponsored links (like Google ads) are only clicked on about 5% of the time? Would your business benefit from top 10 results?

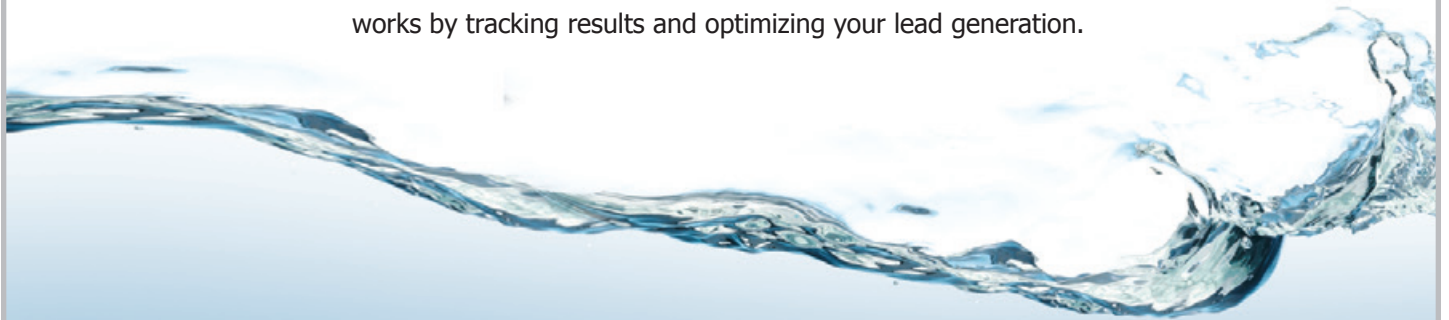

See 500% increase in web visibility to prospects actively researching!

(typical results)

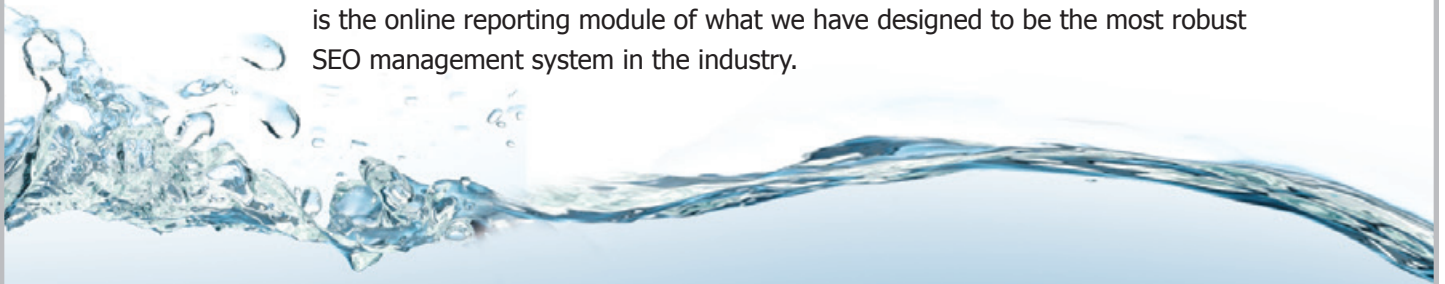

Search Engine Optimization (SEO) is now the most cost-effective way for a company to generate new business. You can have an excellent product and a stunning website, but you must have greater visibility on search engines like Google or 85% of those looking for your product won't find you.

RefreshWeb is a six-year old Austin-based internet marketing agency, applying over 30 years of marketing expertise to this new marketing frontier. RefreshWeb's team provides a unique set of skills in marketing, research, site design, information architecture, search engine optimization, web programming, e-commerce, and content creation. Going beyond SEO, Successful Search Marketing works by tracking results and optimizing your lead generation.

Tiers of service:

- 1. Free Ranking Report:** assesses the current site performance and evaluates the amount of missed opportunity.
- 2. Site Performance Audit:** includes a detailed analysis of your competitors and our recommendations for improvements. Option for smaller sites based on keyword research.
- 3. Site Optimization**
 - a. More detailed research on prospects' search behavior
 - b. Optimized content of site pages to make these search terms have relatively high weight on the page
 - c. Managing the submission and inclusion of pages on the major search engines
 - d. Managing internal and external link development
 - e. Monitoring performance and making recommendations for improvements
- 4. Pay Per Click:** this can be a powerful tool to quickly achieve top-of-the-rankings presence and generate a greater volume of leads. RefreshWeb's solution integrates management of organic SEO and paid search with the goal of continually lowering cost and increasing the number of leads.
- 5. You track our performance!** We are confident in our ability to help you succeed and have created the **RefreshWeb SEO Dashboard** so you can track increased site performance over time. Launched in September 2008, this is the online reporting module of what we have designed to be the most robust SEO management system in the industry.

Starting with the audit, you will know the costs and expected benefits before we start work. For sites where we need to look at redesign or new infrastructure, this scoping process helps us to match your needs with the right solutions.

Curious?

Call us today for a FREE RANKING REPORT!
RefreshWeb will work with you to discover:

- the terms people really use to find your product
- how many people are searching on those terms
- we will give you a free report showing how well your website is performing on those terms.

Offices in Austin, Houston, and Kansas City
